Google

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PREFACE.

THE ten parts which this volume comprises have already been issued separately, and now appear in a collective form with a General Index. Since the publication of the various parts the information contained in them has been subjected to careful revision, and in some cases the tables have been entirely recast. It is possible, however, that some errors may still remain uncorrected; if there be any such which come under attention information concerning their nature and position would be gladly received.

The following pages contain chiefly matter in a tabular form, and should therefore be read in conjunction with the "Wealth and *Progress* of New South Wales," an annual publication, based for the most part on the figures found in this volume, and designed, as its title shows, to illustrate the resources of this Colony.

Harbour and Light Rates.—Every registered vessel is subject to a half-yearly rate of 4d. per ton on the net tonnage. Men-of-war, cable-laying vessels, vessels in distress, whalers, and yachts are exempt from dues. The amount collected during 1892 was £20,610.

Pilotage.—The same exemptions obtain for pilotage, except vessels in distress, which are charged half rates. Captains of vessels of any nationality who have obtained Exemption Certificates are not liable for pilot dues. A minimum tonnage charge of £2 10s. is made for the ports of Sydney and Newcastle, and £1 5s. for other coastal ports, for vessels of 150 tons and under, and 75 tons and under, respectively. An additional 4d. per ton on the net register is charged on shipping over these limits. The amount collected during 1892 for pilotage was £38,426, and for removal dues £4,474, giving a total of £42,900.

Act relating to Merchant Seamen.—The Seamen's Laws Consolidation Act of 1864 (27 Vic. No. 13) applies only to vessels registered in the Colony; vessels arriving in New South Wales registered elsewhere are subject to the Imperial Merchant Shipping Act of 1854 (17 and 18 Vic., cap. 104). Shipping Offices are established at Sydney and Newcastle, the business at the other ports being undertaken by the Local Customs Officers. The Local Act provides for the protection and discipline of the seamen, provision being also made for the enforcement of various penalties for breaches of the Act. It also defines the mode of procedure between master and seamen as regards wages and provisions, and requires the shipmaster to notify to the Shipping Office engagements and discharges of seamen.

Adjustment of Returns. The figures relating to coin, bullion, and foreign exports have been adjusted through the gold returns being amended. In those years where there is an excess of Export over Import of Gold, the difference has been accepted as the domestic export; when opposite conditions obtain the whole of the gold has been classed as other than domestic produce, no credit being taken for the manufacture of the gold into coin at the Sydney Mint.

Tariff.—The Import Tariff of late years has undergone many revisions. In 1884 the duties were slightly increased on Opium, Tobacco, and Cigars. Cigarettes and stearine were also added to the list of dutiable articles. During 1888 considerable additions were made to the specific list while the ad valorem duties after having been in abeyance since 1873 were re-established. In the following year, however, the tariff was considerably modified and the ad valorem duties again abolished. At the end of 1891 many additions were made to the number of dutiable articles and ad valorem duties were again imposed.

Tax on Chinese. The first Act [25 Vic No. 3] to regulate and restrict the immigration of Chinese came into operation, February, 1862. Under its provisions a tax of £10 per head was imposed on Chinese immigrants to New South Wales and Certificates of Naturalization were disallowed; this statute was repealed in November, 1867, and till December, 1881, no restrictions were in force against Chinese entering the Colony. In that year, however, an Act [45 Vic No. 11] was passed which imposed for a second time a tax of £10 per head. In 1888 this Act was repealed, and a more stringent one [52 Vic No. 4] adopted. No Chinese unless those coming under exemption clauses of the Act, are now permitted to enter New South Wales either by sea or land without the payment of a tax of £100, and the principle restricting Certificates of Naturalization has been embodied in the Act.

Excise.—Prior to 1884 the only excise duty in force was on locally distilled spirits; in the year named hops, tobacco, cigars, and cigarettes manufactured in the Colony were added to the list, and in 1887 an excise tax of 3d. per gallon on beer was imposed, while the duty on distilled spirits was increased.

Customs Licenses.—During the year 1892 licenses were held by 40 bonded warehouses, situated in Sydney, and 20 at outports and inland stations. Goods remaining in a Queen's warehouse are merely held for security for the duties due thereon, without reference to ownership. Under the provisions of Act 42 Vic. No. 19 (1879) licenses have been granted to 445 persons to carry bonded goods, and for the conveyance of dutiable goods from an importing ship to a bonding warehouse.

SAILING VESSELS.—Fares by sailing vessels are in nearly every instance a matter of private arrangement between the Captain of the vessel and the intending passenger, but the number of such passengers is becoming smaller from year to year owing to the great decrease of the rates of steamer fares. Fares to London are, however, given, as £35 to £42 first class and £20 to £25 second class, and to San Francisco as £30 first class and £15 to £20 second class.

Estimated Deficiency of Consolidated Revenue Fund at close of the year 1892		**1,299,542**

Public Accounts, 1893. The position of the Consolidated Revenue Account at the close of the year 1893 is briefly explained as follows. In addition to the estimated deficiency, £1,299,542, which accumulated during the period 1887–92, there was a liability of £1,892,884 on the Deficiency Debt of 1886 and previous years, which, added to the former figures, gives a total deficiency of £3,292,426 at the close of 1892. It is estimated that the accounts of 1893 will show an excess of payments over receipts amounting to £20,239, which, added to the Deficiency Debt of 1892 and previous years, gives an accumulated deficiency at the end of 1893 of £3,403,895, which it is proposed to liquidate by annual instalments of £200,000. It is expected that the actual deficiency for 1893 will be much less than that estimated (£261,239.)

Audit of Accounts.—Under the terms of the Audit Act of 1870 (33 Vic. No. 18) the Treasurer is required to furnish the Auditor-General, within three months after each financial year has closed, with a statement giving the transactions under the Consolidated Revenue Account and other branches of the Public Accounts during the fiscal year. This officer is directed by the Act to audit the Treasurer's Annual Statements, make a report thereon, and present the result of his labours to Parliament within six months after the receipt of the information from the Treasury. The Auditor-General is appointed by the Governor and Executive Council, but he cannot be removed from office without the sanction of both Houses of the Legislature. The returns given in the Statistical Register relating to "Public Finance" have been compiled from the audited statements.

Accumulated Surplus.—At the end of 1877 the Accumulated Surplus, after all Outstanding Liabilities up to that date had been met, amounted to £2,509,270. The Revenue for 1878, 1879, and 1880, was not sufficient to meet the money appropriated and spent in those years, so that the balance at close of 1880, after all liabilities had been met, was reduced to £1,396,729. The surpluses of 1881 and 1882 however increased the fund to £4,423,975 at the end of the latter year. Between 1882 and 1885 considerable sums were spent out of the Accumulated Surplus on specific appropriations and otherwise, with the result that this fund became practically exhausted at the end of 1885. As late however as 1890 small payments were made from the accumulated surplus, but for liabilities contracted under the Appropriation Acts of 1883 and former years. Until 1883 the Government had, therefore, a reserve fund to meet any revenue deficiency arising, but from 1883 no further assistance could be obtained from this source.

** The amounts given in this column represent the total expenditure of each year to 1892, irrespective of the hen payments were made. During 1892, £888,887 were expended on outstanding liabilities of 1888 and the ucceeding years. The accounts of these years have therefore been adjusted to date. All outstanding liabilities year up to 1887 have been wiped off, and the expenditure shown for each year to that date represents practically al payments from Consolidated Revenue, other than from Accumulated Surplus Revenue, towards the cost of the dministration for each period.

Public Works Act. Under the provisions of the "Public Works Act of 1888" (51 Vic. No. 37) a Parliamentary Standing Committee on Public Works is appointed during the first session of each Parliament. Its functions are to report to Parliament upon proposals for public works, other than those connected with Military and Naval Defence, and the carrying out thereof. The Committee consists of thirteen Members of Parliament, five of whom are chosen from the Legislative Council, and eight from the Legislative Assembly. The Committee confines its investigations to works estimated to cost over £20,000, whether the proposed expenditure is from Loans or Consolidated Revenue; under the amount mentioned the Ministerial Head of the Department has power to sanction the expenditure without reference to the Committee. During 1892 the remuneration paid to members of the Committee was £6,049.

No. 14.—EXPENDITURE for PUBLIC WORKS and other Services provided for by LOAN ACTS, from the COMMENCEMENT of Loans' Account in 1853 to the 31st December, 1892.

The last loan shown was floated for the purpose of adjusting the amounts short and over-raised under Act 17 Vic. No. 34 and all subsequent Acts to 34 Vic. No. 2. After all outstanding liabilities for the services under these Acts had been met there remained a balance of £186,896 13s. 1d., of which £54,370 12s. 4d. was transferred to the credit of the loan raised under Act 30 Vic. No. 2, and the remaining sum, amounting to £132,526 0s. 8d., was transferred in 1891 to the General Loans Account, in terms of a section of the Loan Act, 54 Vic. No. 33, as amended by 55 Vic. No. 35.

* First loan raised under Responsible Government, but authorised under Act of Council. ** Overdue unpresented debentures.

† £5,000 of this amount was repaid by the Government of Victoria

‡ The amount over raised under this Act, viz., £9,436, was paid over to the Sydney Railway Company

First Loan raised in London. In 1855 New South Wales placed on the London market the first instalment of a 5 per cent. loan for £683,300. This was the first external loan raised by an Australian colony.

First Issue Inscribed Stock.—From 1842 to 1883 it was the general practice to raise loan moneys under the form of debenture bonds. In the latter year, however, Act 46 Vic. No. 12 was passed with the object of providing for the issue and inscription of stock, and from that date the system of raising loans by debentures was abolished. The first loan floated under the new conditions was in 1884, but the Act remaining also in force short[illegible] after the negotiation of the £1,000,000 Debenture Loan of 1883 the holders of these stock had the option of exchanging their [illegible] for inscribed stock, a privilege which was availed of to the extent of £1,250,500. The charges annually made by the Bank of England for the inscription and management of stock, which includes the payment of the half-yearly dividends, are £1000 per million for the first ten millions, and for the next five, and £500 per million for all subsequent amounts. The £5,000,000 loan issued in 1884 was the first inscribed stock negotiated and issued by the Bank of England. Prior to that date the Bank of New South Wales negotiated and the London Institution inscribed.

* Year of the inauguration of responsible Government. It is the practice of the Treasury, when establishing the amount of the Public Debt at the close of the year, to take into consideration only the amount of Stock brought to account during the year. This does not necessarily include the whole of the Stock sold during that period. In the foregoing Return the total amount of Stock sold during the year has been debited to the accounts of that year, irrespective whether it was brought to account in the year or after that date. The foregoing Returns, therefore, differ from those of the Treasury.

The Camden Campbelltown line, opened in March, 1882, and the Kogarah San Souci line, opened in September, 1887, were transferred to Railways in 1888 and 1889 respectively, and from the last-mentioned dates the returns of these lines have been included with those of Railways.

First Railway section opened. Railway construction in New South Wales was commenced in 1850, and the first length of line—Sydney to Parramatta—was opened on 25th September, 1855. A uniform gauge of 4ft. 8½in. has been adopted for the Railway and Tramway systems.

* The deposits shown are overstated, but the error is small compared with the volume of figures given. The bank balance-sheets do not in many instances clearly define the amount of deposits, other small items being included. The excess in those given for New South Wales only probably amounts to about two millions, and for the total about six millions. The information given in Table No. 5, which was obtained under the Census and Industrial Returns Act, gives the correct figures of New South Wales deposits for 1891-92, viz., £33,471,931. ** Mercantile Bank incorporated with Commercial Bank of Australia. † Bank of South Australia incorporated with the Union Bank of Australia.

Companies Act. Bank Act (42 Vic. No. 21) passed in 1879 the provisions of the Banking Act, 4 Vic. No. 18, as amended by 5 Vic. No. 24 were extended to Limited Liability, Investment, and Trading Companies operating within New South Wales. The Companies are obliged to make quarterly sworn returns similar to those made by the Banks of Issue. The list in the above table is however incomplete, as some of the limited Liability Companies neglected to furnish returns.

Return per cent. on Investments given in detail on Balance Sheet.

The average rate of interest per cent. realised during 1892:

On Mortgages was	6·00 per annum
On Debentures was	5·15 "
On Bank Deposits was	4·98 "
Deposit in Colonial Treasury	1·55 "
The **general average** rate on Investments was	5·12 "

Deposits. Sums to the amount of £10 may be deposited in the Savings Bank of N.S.W., but with the exception of Friendly Societies and Charitable Institutions, deposits exceeding £200 do not bear interest above that amount. Previous to 1888, interest was allowed at the rate of 5 per cent. on accounts closed during the first three years, and 4 per cent. after the expiration of that period. From 1st December 1888 to 30th June 1892, 4 per cent. was allowed on accounts closed during the first year, and 3 per cent. after the expiration of that period. On 1st December 1892 the rate was reduced to 3 per cent.

The Savings Bank of New South Wales was established under Act 3 William IV No. 19, in 1832, and although several amending Acts have been passed since that date, the old Act creating this institution has not been superseded.

KEPT IN Pounds, Shillings, and Pence.	The Weights in use are the Standard Imperial Weights of Great Britain, as regulated by the Act of Council 16 Victoria No. 34. By this Act, Gold, Silver, Platina, Diamonds, or other Precious Stones, are to be sold by Troy Weight, and Drugs, when sold by retail, may be sold by Apothecaries' Weight	The Measures in use are the Standard Imperial Measures of Great Britain, as regulated by the Act of Council 16 Victoria No. 34.

Gold coins are legal tender for a payment of any amount, Silver for an amount not exceeding forty shillings and Bronze for sums not exceeding one shilling.

The "**Bank Issue Act of 1893**" was assented to on 3rd May. Under its provisions the Government could proclaim the notes of any Bank operating in New South Wales legal tender for a period of twelve months. The Act was proclaimed to be in operation for the six months ending the 14th November, 1893, the Government however, did not consider it desirable to extend the time beyond that date.

The "**Bank Note Bill of 1893**" has been virtually agreed to by both Houses of Parliament as it only awaits the agreement of the Legislative Assembly to a slight amendment made by the other branch of the Legislature. The Bill provides that the notes of the Government shall be legal tender in New South Wales except at the head offices in Sydney. The Act shall be in operation for eighteen months from date of passing. No bank shall issue, reissue, or have in circulation at any one time than notes to an amount in excess of one-third of the paid-up capital of the bank (such amount not in any case being greater than one-third of two million pounds) together with the value of the coin and gold bullion held by the bank in the Colony, and no bank shall issue notes to an amount in excess of one million pounds.

Branches of Royal Mint.—The Sydney and Melbourne Branches of the Royal Mint are the only ones in existence in the British Possessions, the Mints at Calcutta and Bombay being established on a different basis. The Sydney Branch was opened on 14th May, 1855, and that of Melbourne on 12th June, 1872. Colonial gold coins were declared, under Act 18 Vic. No. 39, to be legal tender for payment of any amount, and under a clause of the same Act silver to the amount of 40s. was made legal tender.

Postmaster-General's Department. According to the Official Report the revenue for 1892 was £652,269, and the expenditure £779,992, which shows an excess of payments over receipts of £127,723, the whole of which is due to the loss on working the Telegraph and Money Order Branches. The Postal Department, as shown in the foregoing table, is practically self-supporting if the interest on construction of buildings, &c., be omitted from consideration.

Newspapers.—Under Act 56 Vic. No. 31, passed in June, 1893, newspapers are required to be registered at the General Post Office, and both newspapers and supplements must be printed in New South Wales, from type set up therein, in order to entitle their transmission as newspapers. If posted to places in New South Wales within seven days of publication newspapers are forwarded free, but a charge for transmission is made after that date.

Post Cards.—Post cards impressed with 1d stamp may be transmitted in New South Wales, Australasia, and Fiji, and those with 1½d. stamp may be forwarded to other parts of the world.

Parcels. The Parcels Post was inaugurated on 1st October, 1893, for inland and intercolonial transmission, the maximum weight being fixed at 3 lb. and 11 lb., according to mode of conveyance. The foreign system has been in force since 1st August, 1893.

ankruptcy Act.—The first Insolvency Act (5 Vic. No. 17) came into operation in February, 1842, although in l again in 1838, short Acts were passed for the relief of debtors unable to meet their obligations. In December, e "Bankruptcy Act" (51 Vic. No. 10) was assented to, which superseded the old Insolvency Act. Under this Act relating to Insolvency and Bankruptcy was amended and consol dated it came into operation on 1st January, f an amendment (52 Vic. No. 11) was attached in July of the same year. The provisions of the statute are of a lngent nature than those of the previous Act. The law is administered by a Judge in Bankruptcy, who acts in the Chief Commissioner of Insolvent Estates appointed under the old Act.

Probate.—The figures from the Equity Court and Stamp Duties Department relating to transactions in the estates of deceased persons do not agree. The Court returns the gross value of the estates, and includes those estates which, after investigation, are found not to be subject to duty. The number of petitions is also swollen by probates on some estates being taken out a second time. The amount given by the Stamp Duties Department represents the net value of the estates, and only those estates subject to duty appear in the returns. The Probate Act of 1890 (54 Vic. No. 25) was passed in order to consolidate and amend the law relating to Probate and Letters of Administration, and to the succession to Real Estate in cases of Intestacy, and for the preservation and management of the estates of deceased persons. This Act was amended by Act 56 Vic. No. 30, which became law on the 13th June, 1893. Greater facilities are now given for the issue of Probates and Letters of Administration in small estates.

Stamp Duties Act.—The first Stamp Duties Act (29 Vic. No. 6) came into operation on 1st July, 1865, and remained in force under a proviso of the Act till 31st December, 1868, in that year, however, and also in the three following years, "Continuing Acts" were passed, with an Amending Act in 1872. The Act of 1871 provided that the Stamp Duties should remain in force till 31st December, 1874, after which date the duties lapsed by effluxion of time. From 1874 to 1880 no Stamp Duties Act was in force. On the latter date, however, an Act (44 Vic. No.) was passed, providing for the imposition of duties from the 1st July of the same year. In 1886 an amendment was attached, under Act 50 Vic. No. 10, which came into operation on 31st August of that year. Under the provisions of the Probate Act of 1890, *Amendment Act* (56 Vic. No. 30) passed in 1893, no stamp duty can be levied on estates under the value of £200.

Torrens Act. The Real Property Act (commonly known as "Torrens Act") was passed in 1862. In 1873 the Act was slightly amended, and a further amendment was made in 1878. In the last amendment an important clause was inserted, whereby the registered owners of the land are protected from the operation of the Statute of Limitations, and therefore the title is not liable to be taken from them by any length of adverse possession. To indemnify the Government for compensating persons who, through error, may have been deprived of their properties, an Assurance Fund has been created by a contribution of one half-penny in the pound being levied on all property brought under the Act. This Fund at the end of 1892 amounted to £117,629.

Deeds registration. Under Act 11 Vic. No. 4, passed in 1847, any person making a *bonâ fide* advance to any proprietor of sheep, on condition of receiving in payment, or as security, the wool of the next ensuing clip, and duly registering the agreement, is entitled to the whole of the wool mentioned in the agreement. Mortgages on live stock, sheep, cattle, and horses, are valid whether the money secured by the mortgage be payable presently or not, and notwithstanding that the stock remain in the possession of the mortgagor.

Under Act 26 Vic. No. 10.

(Liens on Growing Crops.)

Liens on Growing Crops—	
Number of Liens	1,416
Amount of consideration	£130,155

An Act to legalise preferable liens on yearly crops (26 Vic. No. 10) was passed on the 9th December, 1862. Under its provisions liens on agricultural and horticultural produce may be made, and are valid without parting with the possession thereof.

NOTE. In many instances the amounts lent upon mortgage by the banks are not stated, but simply the words "valuable consideration" or "cash credit" inserted in the deed. As this occurs frequently when the properties mortgaged are evidently of great value, the absence of the amounts must materially affect the returns, and, as a consequence, the amounts under the head of "reconveyances" are necessarily incomplete.

When any sum has been secured, both by a Lien on the Wool and by Mortgage of the Sheep, the amount is included under the head of Mortgages only. Thus in 1892, the gross amount lent on Liens was £1,818,606, but from this has to be deducted the sum of £129,905, secured both by Lien on the Wool and Mortgage on the Sheep, and included in the figure in the last column, so that the net amount lent on Lien was £1,688,661.

*Miscellaneous Deeds embrace all documents where valuable consideration is not stated, such as deeds of gift, assignments for benefit of creditors, settlements, powers of attorney, notifications of resumptions, conditional purchases with nominal consideration, writs of execution, &c., &c.

† In addition to the above there were 31 discharges of Wool Liens, representing £10,179, and 16 transfers of mortgages.

‡ There were also registered 25 transfers of mortgages, 1 agreement, 3 deeds of confirmation, and 2 further assurances *in which no amounts* were specified.

Licenses The figures given above are exclusive of licenses for public vehicles granted by country Municipal Councils and 445 granted by the Collector of Customs for the conveyance of bonded goods. Prior to 1873 the regulation of street traffic was under the City Council. In that year an Act (36 Vic. No. 14) was passed which transferred the control of the traffic to three Transit Commissioners, the number of which was eventually increased, in 1886 to four by Act 50 Vic. No. 14. The Board consists of the Mayor of Sydney (chairman), the Inspector-General of Police, a representative of the suburban municipalities, and the fourth is elected by the licensees coming under the Act. The two latter are annually elected. The receipts during 1892 amounted to £5,859, of which £5,171 was obtained from license fees, and the balance from fines, &c. The expenditure during the same period was £5,566.

Land Act of 1884.—Under the provisions of the 1884 Land Act the whole Colony was subdivided into three great territorial divisions—the Eastern, embracing an area of 60,450,000 acres; the Central, 55,460,000 acres; and the Western, 79,970,000 acres. By the same Act the Colony was divided into 14 Land Board Districts, these being again subdivided into 99 Land Districts. Of the 141 counties into which the Colony is divided, 54 are in the Eastern, 42 in the Central, and 4 in the Western Division.

Figures relating to alienation have been amended since last issue.

Conditional Purchases.—The smallest area, outside special areas, which can be conditionally purchased, whether under residential or non-residential conditions, is 40 acres. In the Eastern Division the maximum area that can be selected is fixed at 640 acres, and in the Central Division at 2,560 acres. In the Eastern and Central Divisions the holder of any residential conditional purchase is entitled to a conditional lease up to three times the area of his purchase land, provided that the total area, including the portion leased, does not exceed 1,280 acres in the former division and 2,560 in the latter. The conditional lease may be converted into an additional conditional purchase. In the Western Division ordinary lands are exempt from conditional purchase, but lands within special areas can be conditionally purchased. Non-residential conditional purchases, both in the Eastern and Central Divisions, cannot exceed 320 acres. No special area conditionally purchased can exceed 320 acres in the Eastern, or 640 acres in the Central and Western Divisions.

As it is of first importance to accurately classify the hands into their respective employments, it has been customary to subdivide works where more than one important industry is followed. Thus where boot-making and tanning are carried on in the same establishment, if both industries are large, they would be treated as separate works, so with engineering and joinery, brewing and cordial-making, &c.

*These figures are the reduced rates in 1893. The hewing-rate varies according to the price of coal.

†Hours of Working:—The system of 8 hours per day is recognised throughout all the mines. 48 hours constitute a full week, but owing to the numerous stoppages during the year the average is greatly reduced.

* A person punished for more than one offence appears separately for each conviction.
§ Recoverable by levy and distress, where no proceedings have been taken after return to distress warrant.
† Whipping. Under the Criminal Law Amendment Act (40 Vict., No. 17) provision has been made for whipping as an additional punishment, chiefly for offences classed as wanton and unprovoked assaults and indecent exposure. The Courts adjudicating on it, however, consist of two or more Justices, one of whom shall be a Police or Stipendiary Magistrate. In the Metropolitan District the cases are decided before two Stipendiary Magistrates.

Magistrates' Courts. The jurisdiction of Magistrates is limited except in a few special cases, to offences involving a penalty of six months' imprisonment and under. Magistrates have power to enforce penal sentences up to the maximum limit on persons convicted on more than one charge. All persons, except those committed by Supreme Court Judges and Coroners, who are entered on the charge sheet of the police must be brought before Magistrates to be by them summarily dealt with or committed to a higher court.

‡ Of this number, 2,484 had been tried, 129 were awaitin gtrial, and 9 were confined in the gaol as debtors.

Entries and Discharges.—The figures showing the Entries and Discharges represent the transactions of each gaol during the year. As persons transferred from one gaol to another are recorded at each gaol, and the aggregate of which would misrepresent the criminal transactions of the year, the figures have not been established.

District Courts.—Courts have been established for the trial of civil causes where the value in dispute does not exceed £200. They are presided over by Judges specially appointed for the purpose, who also perform the duties of Chairmen of Quarter Sessions. District Courts sit ten months during the year in the metropolis, and are held twice a year in all important country towns. The Judge is not ordinarily assisted by a jury, but in cases where the amount in dispute exceeds £20, either of the parties may, by giving notice to the Registrar of the Court, have a jury summoned. On questions of law an appeal lies to the Supreme Court.

Divorce.—Prior to the passing of the Matrimonial Causes Act of 1873 (36 Vic. No. 9), the Supreme Court of N.S.W. had no jurisdiction in divorce. Several amendments have been attached to the original Act since that date, the two last—56 Vic. No. 37 and 56 Vic. No. 36—considerably amended and extended the law of divorce. It may be mentioned that Act 55 Vic. No. 37, which was assented to on the 9th May, 1892, did not come into force, owing to an informality, till the 6th August of that year. The chief grounds for divorce under the old Act were adultery since marriage on the part of the wife and adultery and cruelty on the part of the husband. In addition to the foregoing causes, petitions for divorce can now be granted under certain conditions on the following grounds, viz.—Desertion, habitual drunkenness with cruelty or neglect, &c., in gaol under conviction, and violent assaults.

*Aborigines. The Aboriginal population was not included in the Census of 1861, while in 1871 and 1881 the wandering tribes were passed over and only those who were civilized or in communication with Europeans were enumerated. It is probable that the numbers for these years were, approximately,—in 1861, 15,000; in 1871, 12,000; and in 1881, 10,000.

Aborigines.—The Aborigines are included for the years 1861 and 1891 ; but for 1871 and 1881, while the wandering tribes were passed over, those who were enrolled or in communication with Europeans were enumerated, so that the totals for 1871 and 1881 include 565 and 1,641 Aborigines respectively. In the foregoing table also the unspecified as to conjugal condition have been distributed by proportion amongst the other numbers.

Immigration. State assisted immigration ceased in the year 1887 but those who arrived as immigrants, and are residing in New South Wales, may, under the regulations, send for their wives and families. Reference may be made to records relating to the arrival of immigrants since 1832, and copies of certificates of birth may be obtained by immigrants at the office of the Agent.

Naturalisation.—The first Act empowering the Governor to grant letters of naturalisation in New South Wales was assented to in 1828 (9 Geo. IV, No. 1). The next important Act passed was 11 Vic., No. 39 as amended by 17 Vic., No. 8. This was repealed in 1876 in favour of the Act now in force, 39 Vic., No. 15. A clause in the Chinese Immigrants Regulation and Restriction Act of 1861 (25 Vic., No. 3) provided that certificates of naturalisation should not be granted to Chinese. This Act was, however, repealed on the 26 November, 1867, but since the date of the passing of the Chinese Restriction and Regulation Act of 1888 (52 Vic., No. 4), no certificates of naturalisation can be issued to Chinese in New South Wales. Certificates of naturalisation granted in other Colonies do not confer the right of British citizenship in New South Wales.

Note. The number of individual students enrolled for the year was 8,295, and the average attendance, 6,205. nical classes are open during three terms of the year, except where held in connection with Public Schools, when terms are made. Technical education first received the attention of the State in 1878, when a grant of £2,000 was e towards the organisation of a Technical College in connection with the Sydney School of Arts. In 1883 the ernment appointed a Board of Management, which was, however, dissolved in 1889 and a Superintendent of nical Education appointed under the direct control of the Minister of Public Instruction.

* The Matriculated Students are included with those attending lectures.

The Sydney University was established by Act 14 Vic., No. 31, which was passed in 1850. This institution is granted an annual endowment by the State of £5,000, and receives in addition special grants from the same source, the amount received during 1892 was £18,100. The Public Examinations at the University are similar to the *Middle Class* Examinations of Oxford and Cambridge. They are held annually, in September, and are intended to test the qualifications of boys and girls attending schools or being instructed privately. They are divided into Senior and Junior, and certificates of competency in the *several* subjects of examination are given to the successful candidates. These examinations are *distinct* from the examination for the Civil Service.

Affiliated Colleges. There are four affiliated colleges in connection with the University—St. Paul's (Church of England), established in 1854; St. John's (Roman Catholic), in 1857; and the Presbyterian College of St. Andrew's, in 1867. The Wesleyan body, for whom an equal area of land had been set apart, declined to accept it. The Women's College was established under Act 53 Vic., No. 10, passed in 1889. Each affiliated college receives from the State an annual endowment of £500 towards the salary of the Principal.

Sydney Grammar School. This School was founded in 1839, and opened in 1835. From the date of inauguration to 1854 it was known as the Sydney College. The school receives a fixed State endowment of £1,500, besides special grants. The total amount received during 1892 was £2,800.

State Aid. Under Act 7 Will IV, No 3 passed in the year 1836, State Aid was extended to the different denominations. tions to that date the Church of England was the only one in receipt of it. Only four denominations, however, accepted privile accorded, viz., the Church of England, Roman Catholic, Presbyterian, and Wesleyan Methodist. In 1866, under 26 Vic No 19 all future grants of public money in aid of public worship were prohibited, and State Aid was confined solely to 154 ministers who were at that date in receipt of stipends. This number, at the end of 1892, was reduced by death or g causes to 53. Although no recognition or assistance is given to any religious denomination by the State, a clause in Statute provides that ministers may receive stipends from the Government when acting as chaplains to penal establishments Charitable Institutions. Those ministers who hold positions of this description are not included in the above table.

OTE.—As the expenditure of Hospitals in nearly every instance does not admit of a distinction being made between unt expended on indoor and that on outdoor relief, it has been found impossible to establish a return showing the yearly cost per bed and per patient. † See note to previous table.

† Under the management of the nursing sisters of the Little Company of Mary. The Hospital receives no Government subsidy. ** Under the care of the Sisters of Charity. ‡ Cost of ambulance.

Endowment. Although there is no statutory provision as to payments being made by Government to general hospitals, the amount of subsidy annually paid has been at the rate of £1 for every like amount received by public subscription. By Act No. 1 passed in 1886, provision was made for the inspection of Hospitals and other Benevolent Asylums, &c., by Government officers to ensure the proper application of grants. Trustees of Hospitals are permitted by Act 4 Vict., No. 9, 1841, to invest the funds in certain specified securities mentioned in the Statute. At meetings held for the election of Officers annual subscriptions of £1 or those who have paid £10 in one sum to the funds of the Hospital are entitled to vote.

Leprosy. The Leprosy Act of 1890 (54 Vic. No. 20) empowers the Board of Health to detain and isolate persons suffering from leprosy, and in accordance with the Act a place has been set apart at Little Bay, and proclaimed as a Lazaret, for the reception and treatment. On the 1st January, 1893, there were 30 persons (18 males and 2 females) in the Lazaret. The wants of the patients are attended to by an experienced wardsman in charge, 2 male attendants, and 2 female nurses, under the direct supervision of the Medical Superintendent and Matron of the Coast Hospital.

CHILDREN'S PROTECTION ACT.

Under the Children's Protection Act (55 Vic. No. 20) of 1892, it is not lawful for a person other than a guardian or the head of a Charitable Institution, to agree upon payment of a premium to receive a child under the age of three years, for the purpose of its being adopted, reared, or nursed, apart from its parent. The limit of the maximum rate of premium for children, and the time of instalments, have also been fixed. Persons adopting or otherwise taking charge of children required to be registered.

Lying-in homes come under the provisions of the Act, and all births must be registered. In the case of still-born children the certificate of a qualified person has to be obtained.

Children under 14 years of age are also protected by the Act, as they are not permitted to take part in performances of an immoral character.

Labour Bureau.—The Government Labour Bureau was established on the 18th February, 1892. Persons requiring employment are registered at the Bureau without fee or charge, leaving the matter of wages to be arranged between the employer and employé. During the year 10,660 persons, of whom 7,449 were married and 11,451 single, registered themselves during the week, and employment was obtained for 8,154. Prior to the 5th July free passes were issued by rail or steamer with the engagements, but since that date orders have been signed by the employees or employers for a refund of the cost of passes to be deducted from the first month's wages. The total amount signed for to the 20th February, 1893, was £2,470, of which £1,[illegible] has been received, the balance amounting to £1,[illegible]—being not then due. In the Redfern branch the Government have provided 30,000 sleepers, the average number of fettlers in receipt of rations being 220. During the year the cost of the rations was £1,324, being at the rate of 1s 6d per ration. A ration consists of 3 lb. meat, 4 lb. bread, ¼ lb. tea, and 4 lb. sugar. The sum of £189 was received by private subscriptions, in addition to which parcels of clothing were distributed to those in need.

NOTE.—Sydney was incorporated in 1842 (6 Vic. No. 9), which Act was repealed with certain exceptions by 14 Vic. No. 41 passed in 1850, the mayoralty continued till 1853, the Corporation was then dissolved (17 Vic. No. 33), and the Government appointed three City Commissioners, who administered the civic affairs till 1857, at which date the Council was re-established under Act 20 Vic. No. 42, which remained in force till 1879, when it was superseded by the present Act, 43 Vic. No. 3. Sydney being governed under special legislation, the Municipal Act (31 Vic. No. 12) of 1867, and Amending Acts only apply to suburban and country municipalities. Under the provisions of Act 11 Vic. No. 1, the Municipalities were divided into two classes, Boroughs and Municipal Districts. A Borough shall upon its first incorporation, contain an area of not more than 9 square miles, with a population not less than 1,000 inhabitants; a municipal district must not exceed 60 square miles, and shall contain a population of at least 500. The boundaries of each class of division must not overlap.

Additional forms of Local Government. In addition to the various forms of Local Government, represented in tables 1, 2, and 3 there are the Board of Metropolitan Transit Commissioners and the City of Sydney Improvement Board operating, as their names imply, within the Metropolitan area. The transactions of the former will be found in Part IV. The latter Board held during 1892 seventy-eight meetings, condemned seven buildings, and six references and one appeal were heard. The fees paid to the Board during the same period were £45. There are also Irrigation Trusts in operation at Wentworth, Hay, and Balranald. The Municipal Council of each district has been empowered to act as the Trust.

The Country Towns Water and Sewerage Act (44 Vic. No. 14) was passed in 1880. Under its provisions municipalities outside the area under the control of the Metropolitan and Hunter District Water Supply and Sewerage Boards are entitled to construct or have constructed for them by Government works for water supply and sewerage. The amount expended in construction is advanced by the State, the municipalities being required to refund the cost by periodical payments including interest at the rate of four per cent. on the amount of each instalment to be repaid by twenty-five per cent. of the total cost, the first payment to be made two years from the date of the transfer of the works to the municipality. It is under the consideration of the Government to alter the conditions of repayment, as the municipalities have not been able to meet their financial engagements to the State as fixed by the Act.

NOTE. The amount of outstanding rates on 31 December, 1892 was £9,597. The Metropolitan Board of Water Supply and Sewerage was established under Act 43 Vic. No. 32, as amended by Act 51 Vic. No. 28. The management of the water supply was transferred to the Board 12 May 1888 and that of the sewerage on 30 September, 1889. The Board consists of seven members, three of whom are nominated by the Government, two by the City Council, and two by the suburban and country municipalities within the county of Cumberland which are supplied by water.

NOTE. The Hunter District Water Supply and Sewerage Board was established under Act 55 Vic. No. 2. Prior to the Board assuming control in 1892 the water supply of the district was under the supervision of the Central Government. The constitution of the Board is drafted on similar lines to that operating in the Metropolitan area, the number of members being also the same. The operations of the Board have so far been confined to water-supply. The interest payable on capital indebtedness is fixed at 3½ per cent. per annum, and the Board is empowered under section 150 of the Act, subject to limitations in respect of maximum rate, to strike such a rate as will provide for this, in addition to annual instalments towards repayment of works, and expenses incurred in carrying out the Act, including the reconstruction of renewable works. The transactions of the year closed with a surplus of £84.

* The State Endowment to the Municipal Council of Sydney was discontinued after the year 1889.

† With the exception of the Municipality of Manly, the water supply of the Metropolitan District is under the control of the Metropolitan Board of Water Supply and Sewerage

Endowment. Under the 189th clause of the Municipalities Act of 1867, each Municipality is entitled to an annual endowment from the State for a period of fifteen years from its incorporation. For the first five years the sum annually granted equals the amount actually raised by ordinary rate, assessments, and subscriptions; for the next five years it is entitled to one half of the amount granted in the last year of the former period, and for the remaining five years the proportion is reduced to one-fourth. At the end of the fifteen years the endowment, as defined by this Act, ceases. All further assistance from the State must be obtained by special grants.

Election Qualifications. Under the Municipalities Act of 1867, every person (whether male or female) of the full age of twenty one years who, on the 7th day of January in any year shall be the occupier, lessee, or owner of any rateable property within any municipality and liable to be rated for the same, shall be entitled to vote. If the property is assessed at an annual value not exceeding £25 the occupier or lessee or owner thereof shall be entitled to one vote; if assessed at over £25 and not exceeding £75 to two votes; if at over £75 and not exceeding £150 to three votes; and if at over £150 to four votes. No person whose rates are in arrear is entitled to vote. By special enactment, both ratepayers and owners of property in Sydney are entitled to vote. Provision is made for the retirement annually of a certain number of aldermen and elections are held to fill the vacancies. Aldermen are elected for a period of three years. The Local Option vote is taken every third year in conjunction with the Municipal Elections of that year.

* Of this number 498 were for Patents and 208 for Certificates of Provisional Protection.

Patent Act. The first Patent Act (15 Vic., No. 24) was passed in 1852, but did not come into operation until 1st January, 1854. It was amended in 1879 (42 Vic., No. 27) and again in 1887 (51 Vic., No. 3). Under the provisions of the last-mentioned Act fees for complete Letters Patent were reduced to £5, and provision was then made for the issue of Certificates of Provisional Protection on payment of a fee of £2 which may, if application be made within twelve months from granting, be converted into a Patent on the payment of an additional £3. The period for which Letters Patent remain in force varies from seven to fourteen years, a Certificate of Provisional Protection can, however, only be granted for twelve months from date of issue. A patent granted in New South Wales only protects the holder or holders within the boundaries of that Colony.

In addition to the above forces there is a cadet force established in connection with the public schools, the total th of the corps at the end of 1892 was 6,221.

The Imperial troops were withdrawn from the Colony in 1870. In the succeeding year, Act 34 Vic. No. 19 (Military val Forces Regulation Act) was passed, having for its object the establishment of a local permanent force. Under hority the regulation and discipline of the regular forces are administered. The first volunteer force was enrolled , under Act of Council 18 Vic. No. 8, which was repealed in 1867 in favour of the "Volunteer Force Regulation 1 Vic. No. 5 of that year. Under its provisions the forces were re-organised. One of the clauses of the Act pro- or the issue of Volunteer Land Orders, which part was repealed under Act 41 Vic. No. 15 in 1878. The forces gain reorganised in the year last mentioned, and in 1885 an additional force of reserves was attached. The Rifle nies, which formed portion of the reserves, were, however, disbanded at the end of 1892.

Fire Brigades. The "Fire Brigades Act" (47 Vic No. 3) was passed in 1884. Under its authority a Fire Brigade Board for Sydney and suburbs, and twenty-three country Boards have been established. The annual expenses of the Metropolitan Board is contributed in equal amounts by the Government, the Municipalities within the proclaimed area, and the Fire Insurance Companies holding risks within those Municipal Districts. The Country Boards receive subsidies from the Government and the Municipalities interested, but the Fire Insurance Companies have, in nearly every case, declined, owing to an ambiguous clause in the Act, to contribute their share as defined by the Act.

The following country Municipalities have been gazetted under the "Fire Brigades Act of 1884":—Albury, Armidale, Bathurst, Bourke, Braidwood, Denilquin, Forbes, Glen Innes, Goulburn, Grafton, Hay, Lismore, Moama, Molong, Mudgee, Orange, Parkes, Singleton, Tamworth, Temora, Wagga Wagga, West Maitland, Wollongong.

New Electoral Act. Under the Electoral Act (1893, 44 Vic. No 15) New South Wales was divided into 9 Electorates. This number was afterwards increased to 74 by the subdivision of the Electoral Districts of Wentworth Each Electorate having less than 1,000 electors on the roll was entitled to one member, above that number and less than 5,000 to two members, 5,000 to 8,000 three members, and above the latter number it was entitled to four members. The Act is now superseded by the Parliamentary Electorates and Elections Act (56 Vic. No 48), which was assented to March June 15th. Under this Act the Colony is divided into 125 Electorates each returning one member. The apportionment of the districts, and also their periodical adjustment, are entrusted to three Electoral District Commissioners, but the proposed divisions must be finally sanctioned by Parliament before being proclaimed. The Act provides that each elector shall be entitled to vote for one, and only one, candidate at any election, this principle being popularly known as "One Man One Vote."

NOTE.—The total rainfall given for each month in Table No. 28 is from the ordinary rain gauge. The records of pluviometer are affected by the force of the wind and some loss by friction in the recording machine, the total, therefore always less than that shown by the rain gauge. The total rainfall for 1892 according to the previous Table was, 63 inches, while in the above table it appears as 63 180 inches.
